Title V Outcome Measures and Performance Measures

Kansas Maternal and Child Health Services Block Grant
2017 Application/2015 Annual Report

Key and Definitions

An "-" indicates the data were not available at the time of reporting.

The **arrow** indicates the direction of the trend, if any, and the color indicates if the direction is positive (**green**) or negative (**red**); A **yellow** dot indicates no definite trend is apparent.

HP2020 - Healthy People 2020 goal

PRAMS - Pregnancy Risk Assessment Monitoring System; Kansas is not a CDC funded PRAMS state.

Medicaid and Non-Medicaid: Based on the "principal source of payment for this delivery" as reported on the birth certificate.

Medicaid Measure: Based on if it is a quality care measure necessary for the national level or for Managed Care Organizations to report to state of Kansas

CMS: Centers for Medicare and Medicaid Services

P4P: Pay for Performance Measure for Managed Care Organizations to report to state of Kansas

*Statistically significant trend ($p < 0.05$)

Note: The [MCH Biennial Summary, 2014](http://www.kdheks.gov/c-f/mch.htm) is available and posted on the Bureau of Family Health website (<http://www.kdheks.gov/c-f/mch.htm>). This document was developed and designed to describe and track progress on the public health significance of the indicators related to women/maternal health, perinatal/infant health, child health, adolescent health, children and youth with special health care needs, and cross-cutting/life course. The biennial summary also provides trend data and determines how well the priorities have been addressed by state and local programs.
