

## Workgroup: Women & Maternal Health

**Priority 1: Women have access to and receive coordinated, comprehensive services before, during and after pregnancy (Domain: Women & Maternal)**

Objective	Urgency (U) 2-5	Impact (I) 1-3	Realistic (R) 1-3	Total U+I+R	Comments <i>Key insights your team has had working in this area to date, known partners, interventions, programs, etc.</i>
1.1: Increase the proportion of women receiving a well-woman visit annually.	5	2	1	8	
1.2: Increase the number of completed referrals for services in response to screening at every visit by 2020.	4	3	2	9	
1.3: Increase the number of established perinatal community collaboratives [e.g., Becoming a Mom (BAM) program] by at least 5 annually by 2020.	3	2	3	8	
1.4: Increase the percent of pregnant women on Medicaid with a previous preterm birth who receive progesterone to 40% by 2017 and increase annually thereafter.	4	1	2	7	
1.5: Decrease non-medically indicated births between 37 0/7 weeks of gestation through 38 6/7 weeks of gestation to less than 5% by 2020.	5	2	3	10	

National Performance Measure (NPM)	Data Trend	State Performance Measure (SPM)	Data Trend
<b>NPM 01:</b> Well-woman visit (Percent of women with a past year preventive medical visit)	↓	<b>SPM 1:</b> Percent of preterm births (<37 weeks gestation)	+

**Priority 6: Professionals have the knowledge and skills to address the needs of maternal and child health populations. (Domain: Cross-Cutting/Life Course)**

Objective	Urgency (U) 2-5	Impact (I) 1-3	Realistic (R) 1-3	Total U+I+R	Comments <i>Key insights your team has had working in this area to date, known partners, interventions, programs, etc.</i>
6.1: Increase the proportion of smoking women referred to evidence-based cessation services to 95% or higher by 2020.				2 <sup>nd</sup>	
6.2: Increase abstinence from cigarette smoking among pregnant women to 90% by 2020.				3 <sup>rd</sup>	Needs to be multidisciplinary; Dr. Morgan: applies to all objectives
<p>6.4*: Build MCH capacity and support the development of a trained, qualified workforce by providing professional development events at least four times each year through 2020.</p> <p><i>*also reviewed by Child, Perinatal/Infant and Adolescent Health Workgroups</i></p>				1 <sup>st</sup> (top priority)	Need to achieve 6.4 to succeed with 6.1 and 6.2.

National Performance Measure (NPM)	Data Trend
<b>NPM 14 (A):</b> Smoking during Pregnancy and Household Smoking (A.) Percent of women who smoke during pregnancy	+
<b>NPM 14 (B):</b> Smoking during Pregnancy and Household Smoking (B.) Percent of children who live in households where someone smokes	+

**Priority 8: Cross-Cutting/ Life Course Information is available to support informed health decisions and choices. (Domain: Women & Maternal Health)**

Objective	Urgency (U) 2-5	Impact (I) 1-3	Realistic (R) 1-3	Total U+I+R	Comments <i>Key insights your team has had working in this area to date, known partners, interventions, programs, etc.</i>
8.1: Increase the proportion of MCH grantee providers who provide health information education to clients to improve health decision making among women, pregnant women, children, adolescents, and children and youth with special health care needs annually.				2 <sup>nd</sup>	
8.2: Partner with Health Literacy Kansas (HLK) to provide training to improve the knowledge of parents and teens as to the importance of making informed health decisions by 2020.				3 <sup>rd</sup>	Dr. Morgan: Systems must change in order to get positive impact with individuals &..
<p>8.5: Incorporate information regarding changes to the health care system into existing trainings and technical assistance by 2020.</p> <p><i>*also reviewed by Child, Perinatal/Infant and Adolescent Health Workgroups</i></p>				1 <sup>st</sup> (top priority)	<p>Diane: Need for continuous approach due to high KDHE turnover and rapid change</p> <p>Need to do 8.5 in order to achieve 8.1 and 8.2.</p>

State Performance Measure (SPM)	Data Trend
<p><b>SPM 5:</b> Percent of adults who report that it is somewhat difficult or very difficult to understand information that doctors, nurses and other health professionals tell them</p>	Not yet available
