Expectations for Domain Work Groups

Stay present and participate actively.

Invite everyone into the conversation. Take turns talking.

ALL feedback is valid. There are no right or wrong answers.

Value and respect different perspectives (providers, families, agencies, etc.).

Be relevant. Stay on topic.

Allow facilitator to move through discussion questions.

Avoid repeating previous remarks.

Disagree with ideas, not people. Build on each other's ideas.

Capture "side" topics and concerns; set aside for discussion and resolution at a later time.

Reach closure and summarize conclusions or action steps for small group reports.

Work Group Questions

1. What were the most critical takeaways from today's presentations?
2. Based on the information presented today and the ideas generated at the last meeting, continue developing the Domain Workgroup's Special Project to address an unmet need. Please also provide details on the planned concrete outcomes from this project and the tangible deliverables or achievements.

Work Group Projects

Women/Maternal: TBD at today's meeting.

Perinatal/Infant: Welcoming New Babies in Kansas

Child: Provide information on warning signs and things to look for in children aged 5-12. This can be incorporated into professional health and safety training and disseminated through the same channels used for maternal warning signs.

Adolescent: Focus on a voter registration campaign for Kansans.
