

### Behavioral Health Spotlight Notes

During the Behavioral Health Spotlight presentations, consider the following questions and record your reflections for reference during the small group discussion. Because there is crossover between pediatric and maternal behavioral health, all participants and groups should consider all populations in your reflections and discussions; we are serving the whole family.

<i>Consider...</i>	<b>Kansas Connecting Communities (KCC) Grant - Reflections</b>
1. What resonated with your experiences and observations related to perinatal mood and anxiety disorders (depression, anxiety, etc.) and perinatal substance use?	
2. What questions, suggestions, or concerns do you have related to the use, implementation, promotion, and expansion of the perinatal behavioral health screenings?	
3. What specific actions could you or your organization take related to the opportunities and ideas presented here?	

<i>Consider...</i>	<b>KSKidsMAP to Mental Wellness (KidsMAP) Grant - Reflections</b>
4. What resonated with your experiences and observations related to pediatric mental health?	
5. What observations and feedback do you have related to the demonstration? What questions and suggestions do you have related to the promotion and implementation of the KidsMAP consultation line and KidsMAP ECHO clinic?	

<b>Consider...</b>	<b>KSKidsMAP to Mental Wellness (KidsMAP) Grant - Reflections</b>
<p>6. What specific actions could you or your organization take related to the opportunities and ideas presented here?</p>	

<b>Consider...</b>	<b>Both Grants - Reflections</b>
<p>7. What is needed related to behavioral health and mental wellness that is not covered by these two grants? What gaps remain?</p> <p>Consider community sectors, types of organizations, specialties/professionals, geographies, populations, tools, resources, networks, connections, gaps, barriers, promising practices, technical assistance, data, etc.</p>	
<p>8. Other Reflections/Notes</p>	

# Domain Group Worksheet (Group: \_\_\_\_\_)

## Small Group Discussion

As a group, refer to your spotlight reflections and share observations on the following. All groups should consider both projects and the impact on pediatric and maternal populations and the whole family, though your discussions will focus on your population domain group(s).

Consider...	Perinatal Behavioral Health or KCC Grant	Pediatric Behavioral Health or KidsMAP Grant
<p>1. What resonated from the presentations, and what are you currently seeing/ experiencing in your community related to pediatric and perinatal behavioral health?</p> <p>2. What do you see as your organization's role, your individual role, and your community's role for connecting to/ contributing to/ gaining from the project?</p> <p>Organizational roles</p> <p>Individual roles</p> <p>Community roles</p>		
<p>3. Do you have any thoughts or suggestions related to successful project promotion and implementation?</p>		

<b>Consider...</b>	<b>Response</b>
<p>4. Are there special considerations or recommendations related to your population(s) and special health care needs?</p>	
<p>5. What else is needed related to behavioral health and mental wellness that is not covered by these two grants? What <u>priority</u> gaps remain related to any or all the following?</p> <ul style="list-style-type: none"> <li>○ Populations, audiences, or geographies? Health equity issues?</li> <li>○ Data or information?</li> <li>○ Toolkits, resources, or technical assistance?</li> <li>○ Infrastructure, networks, or connections?</li> <li>○ Best practices, effective strategies, or consistent/ coordinated messages?</li> <li>○ Other?</li> </ul>	
<p>6. What can YOU do now? What will you COMMIT to do after this meeting? (Be specific!! You may wish to refer back to question 2.)</p>
